Inside these pages, the stunning architecture, interiors and gardens of 19 lavish private homes in the Hamptons, Long Island's summer playground for the rich and famous, are conceptualized in striking photography and engaging text penned by Anthony Iannacci. Created by celebrated designers that include Jonathan Adler and Simon Doonan, John Barman, Fox-Nahem, Thad Hayes, Tony Ingrao, Todd Merrill and more, theses luxurious homes, many owned by the designers themselves, feature cutting-edge architectural design. From shingled beach cottages to a redesigned 1840s barn and a sustainable, glass-walled guesthouse on pilings, the beauty of the island's landscape and ocean views are captured. Magnificent art collections that enhance each of the homes' interiors add interest and personalize each unique space. Published by Monacelli Press, New York, NY. www.monacellipress.com
